Studying Law in the UK

The UK has long been a leading destination for Canadian students pursuing a law degree. Each year, over 1,000 Canadians choose to study law in the UK, drawn by the opportunity to gain an internationally recognized qualification in a shorter timeframe, typically three years for an LLB compared to the longer path in Canada.

With a rich legal tradition, world-renowned universities, and a direct route to qualification, the UK offers a compelling alternative for future legal professionals.

Since 2006, StudyIn has supported international students through every step of the UK law school application process. Our expert team stays informed on the latest updates in admissions, scholarships, and university rankings. Canadian students can pursue a qualifying law degree at a wide range of UK universities, either directly after high school or following the completion of an undergraduate degree in Canada.

LLB and NCA Accreditation

The LLB is the UK equivalent of a Canadian JD. In the UK, it is offered at the undergraduate level, and students can apply for a three-year LLB program directly after high school. Those who already hold an undergraduate degree can apply for a two-year graduate-entry LLB program.

After graduating, students who wish to practice law in Canada must complete a series of exams prescribed by the National Committee on Accreditation (NCA). Once these exams are successfully completed, students are awarded an NCA Certificate of Qualification, enabling them to move forward with the bar admissions process in their chosen Canadian province.

Which UK Law School?

There are over 100 universities in the UK that offer law programs. Here are just a few where we have placed students.
