StudyIn

Global Education Guide 2027

Succeed with the World's Most Trusted Higher Education Specialist

Since 2006, StudyIn has guided more than 1.3 million students through applications to leading universities worldwide. With long-standing experience across major study destinations, we've helped students secure places in the **United Kingdom, Canada, Australia, Ireland and, New Zealand,** and our expanding network now also includes **Malaysia.**

Trusted by more than 500+ of the world's best universities, our experienced counsellors are here to make your study abroad goals a reality, wherever you aspire to go. So whether you are just beginning your research or ready to submit your 2027 application, we are here to support you at every step.

You're in good hands.

Why Choose StudyIn?

Personalised Guidance

We put your goals first, helping you choose the right course and university to match your ambitions. Our expert counsellors offer step-by-step support from applications through to visas and accommodation.

A Smooth Path to Success

Navigating applications, visas, and documentation alone can be overwhelming. We simplify the process with a clear checklist, accurate submissions, and direct communication with universities and immigration services.

Trusted by Universities

With partnerships across 500+ top global universities, we offer students exclusive access to scholarships, priority application reviews, and insider admissions advice. Meet university representatives and gain a competitive edge when applying.

Unmatched Experience

Since 2006, our university-trained consultants have delivered expert guidance on admissions and financial aid. In 2025, we helped 50,000 students from 156 countries submit more than 100,000 applications worldwide.

Global Reach, Local Touch

With offices around the world and partnerships across leading study destinations, we provide region-specific expertise tailored to your chosen country, backed by support close to home.

Exclusive Events

Gain direct access to global universities through our fairs, open days, workshops, and webinars. Meet decision-makers, receive personalised admissions advice, and take confident, informed steps towards your future.

Your Steps to University Admission

Studying abroad is an exciting journey, one filled with new opportunities, experiences, and possibilities. While navigating universities, applications, and visas can feel overwhelming, we make it effortless.

With expert guidance and dedicated support at every step, we handle the complexity so you can focus on your future.

01 Free Consultation

Connect with our expert counsellors to discuss your study and career goals.

02 Select Your Universities

Receive tailored recommendations based on your academic profile and future ambitions.

03 Build a Successful Application

Get expert reviews of your personal statement, reference letters, and application forms.

04 Beyond Application Support

Receive continuous support through the application process, helping you weigh up your offers and prepare for the next stage of your journey.

Comprehensive Support You Can Count On

With dedicated one-to-one support,
our application services can help you secure
an offer from the best-fit university and course for your goals.
Let us help you take the first step.

Free Support

Our free service supports students with applications, eligibility, and guidance on required documents and deadlines.

Premium

Reduce application stress with our Premium Service. We'll complete your application, refine your personal statement, and guarantee an offer from at least one university.

Top Universities

Specialising in applications for leading global universities, this service prepares you for the rigorous application process, including interview practice, to maximise your chances of success.

Art and Design

Get expert guidance on applying for a creative programme, including portfolio creation advice from a practising art academic.

Medicine

Strengthen your application for medicine, dentistry, or veterinary courses with interview practice and expert advice from a doctor on a medical school admissions panel.

PhD

Our PhD Service guides you through crafting a strong proposal and connecting with the right supervisor, ensuring your application stands out.

Student Essentials

You can also plan every step of your study-abroad journey with ease with Student Essentials. From housing and career guidance to banking, insurance, and everyday necessities, our trusted partners help you settle in and focus on what matters most.

Accomodation

Find safe, convenient, and affordable accommodation options to make your study abroad experience hassle-free.

Foreign Exchange

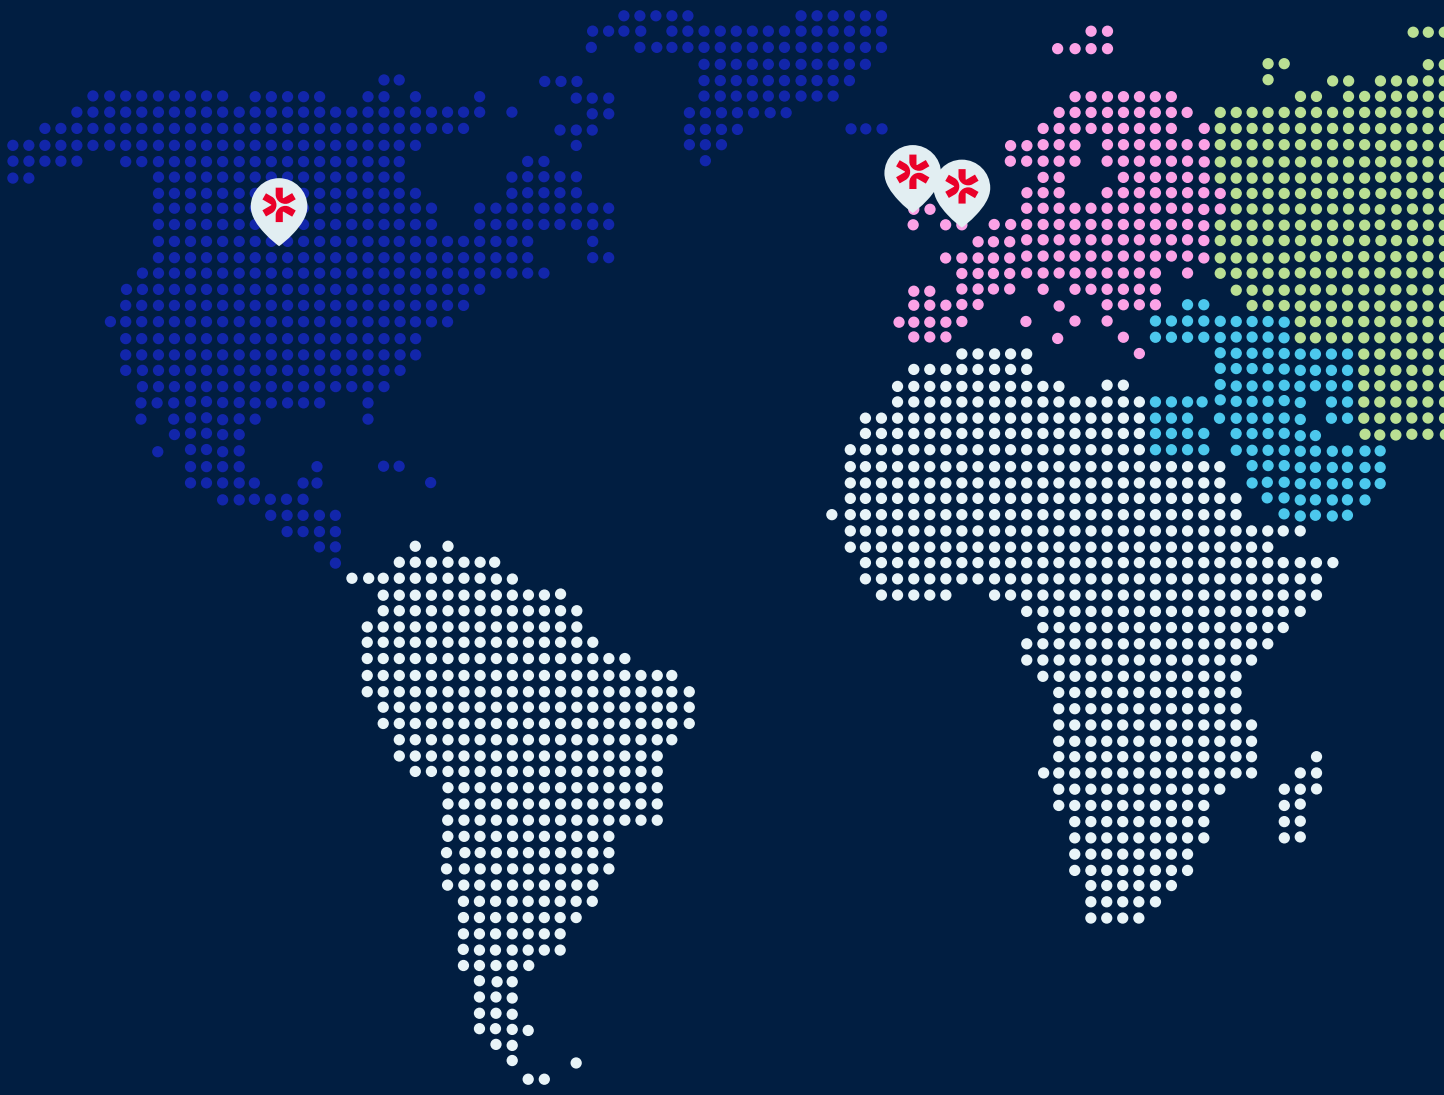

Get the best rates and reliable services for all your international currency needs.

Test Preparation

Access resources and guidance to help you ace exams like IELTS, TOEFL, GMAT, and more.

Where Do You Want to Study?

StudyIn provides full, end-to-end application support at destinations across the globe. Wherever your ambitions take you, our expert counsellors are with you at every step, from choosing the right course to securing your student visa.

Europe

United Kingdom • Ireland

Asia

Malaysia

Oceania & Middle East

Australia • New Zealand

North America

Canada

Compare All Destinations

Wherever you see yourself, we'll help you get there.

United Kingdom

One of the world's most trusted study destinations for Bangladeshi students, offering globally recognised degrees, shorter course durations, and strong graduate employability.

Capital

London

Popular Student Cities

London, Manchester, Edinburgh

Currency

British Pound (£)

Flight Time from Dhaka

Approximately 10–13 hours

Study & Cost

UG duration: 3 yrs **PG duration:** 1 yr

Tuition range: £11,000 - £24,000 per year

Living range: £10,000 - £14,000 per year

Scholarships /funding: Chevening Scholarships, GREAT Scholarships, Commonwealth Scholarships, and university-specific merit and country-based scholarships (typically 25–100% tuition waivers)

Main Intakes & Application Route

Intakes: September (main), January and May (limited course availability)

Applying: UCAS (undergraduate), direct to university (postgraduate)

Application deadlines: January (most undergraduate courses), October (Oxbridge, medicine, dentistry, veterinary); postgraduate deadlines vary by university, typically November to June

Work & Career

Permitted work hours: Up to 20 hrs/week during term time, full-time during holidays

Post-study work: Graduate Route, currently up to 18 Months or 1.5 Years (3 years for PhD); reducing to 18 months for most graduates from 1st January 2027, PhD unchanged

Industry strengths: Business and Finance, Engineering, Healthcare and Life Sciences, Technology

Career pathways: Investment banking and consulting (London), NHS and allied health roles, engineering and manufacturing graduate schemes, tech and data roles

Key Consideration

The Graduate Route's reduction to 18 months from January 2027 affects post-study planning for anyone starting a course close to that date. Students should also budget for the Immigration Health Surcharge and visa costs on top of tuition and living expenses.

Ireland

A fast-growing, English-speaking gateway to Europe, combining globally recognised universities with a thriving job market anchored by major multinational employers.

Capital

Dublin

Popular Student Cities

Dublin, Cork, Galway

Currency

Euro (€)

Flight Time from Dhaka

Approximately 13–16 hour

✳ Study & Cost

UG duration:	3–4 yrs	**PG duration:**	1 yr
Tuition range:	€17,500 - €21,000 per year		
Living range:	€8,500 - €12,000 per year		
Scholarships /funding:	Government of Ireland International Education Scholarship (GOI-IES, postgraduate only, full tuition plus a stipend, 60 places awarded globally each year), Trinity College Dublin Global Excellence Scholarship (merit-based, open to Bangladeshi applicants), university-specific merit awards		

✳ Main Intakes & Application Route

Intakes:	September (main)
Applying:	CAO (undergraduate), direct to university (postgraduate)
Application deadlines:	CAO deadline for undergraduates, 1st February (late applications accepted until May); postgraduate deadlines vary by university, typically April to June

✳ Work & Career

Permitted work hours:	Up to 20 hrs/week during term, up to 40 hrs/week during holidays
Post-study work:	Third Level Graduate Scheme (Stamp 1G), 12 months for Bachelor's graduates, up to 24 months for Master's or PhD graduates (granted as an initial 12 months plus a renewal on evidence of active job-seeking)
Industry strengths:	Technology, Finance, Pharmaceuticals, Life Sciences
Career pathways:	Tech and multinational HQ roles in Dublin (Google, Meta, Microsoft), pharma and life sciences manufacturing, finance and fintech, growing biotech and med-tech sector

✳ Key Consideration

The extended 24-month post-study window applies specifically to Master's and PhD graduates, Bachelor's graduates get 12 months. Course level is worth factoring into destination choice for students prioritising a longer stay-back period, and it's worth planning GOI-IES applications early given how competitive and tightly timed the scholarship cycle is.

Malaysia

A cost-effective destination known for English-taught degrees, international branch campuses and strong value for students seeking globally recognised qualifications.

Capital

Kuala Lumpur

Popular Student Cities

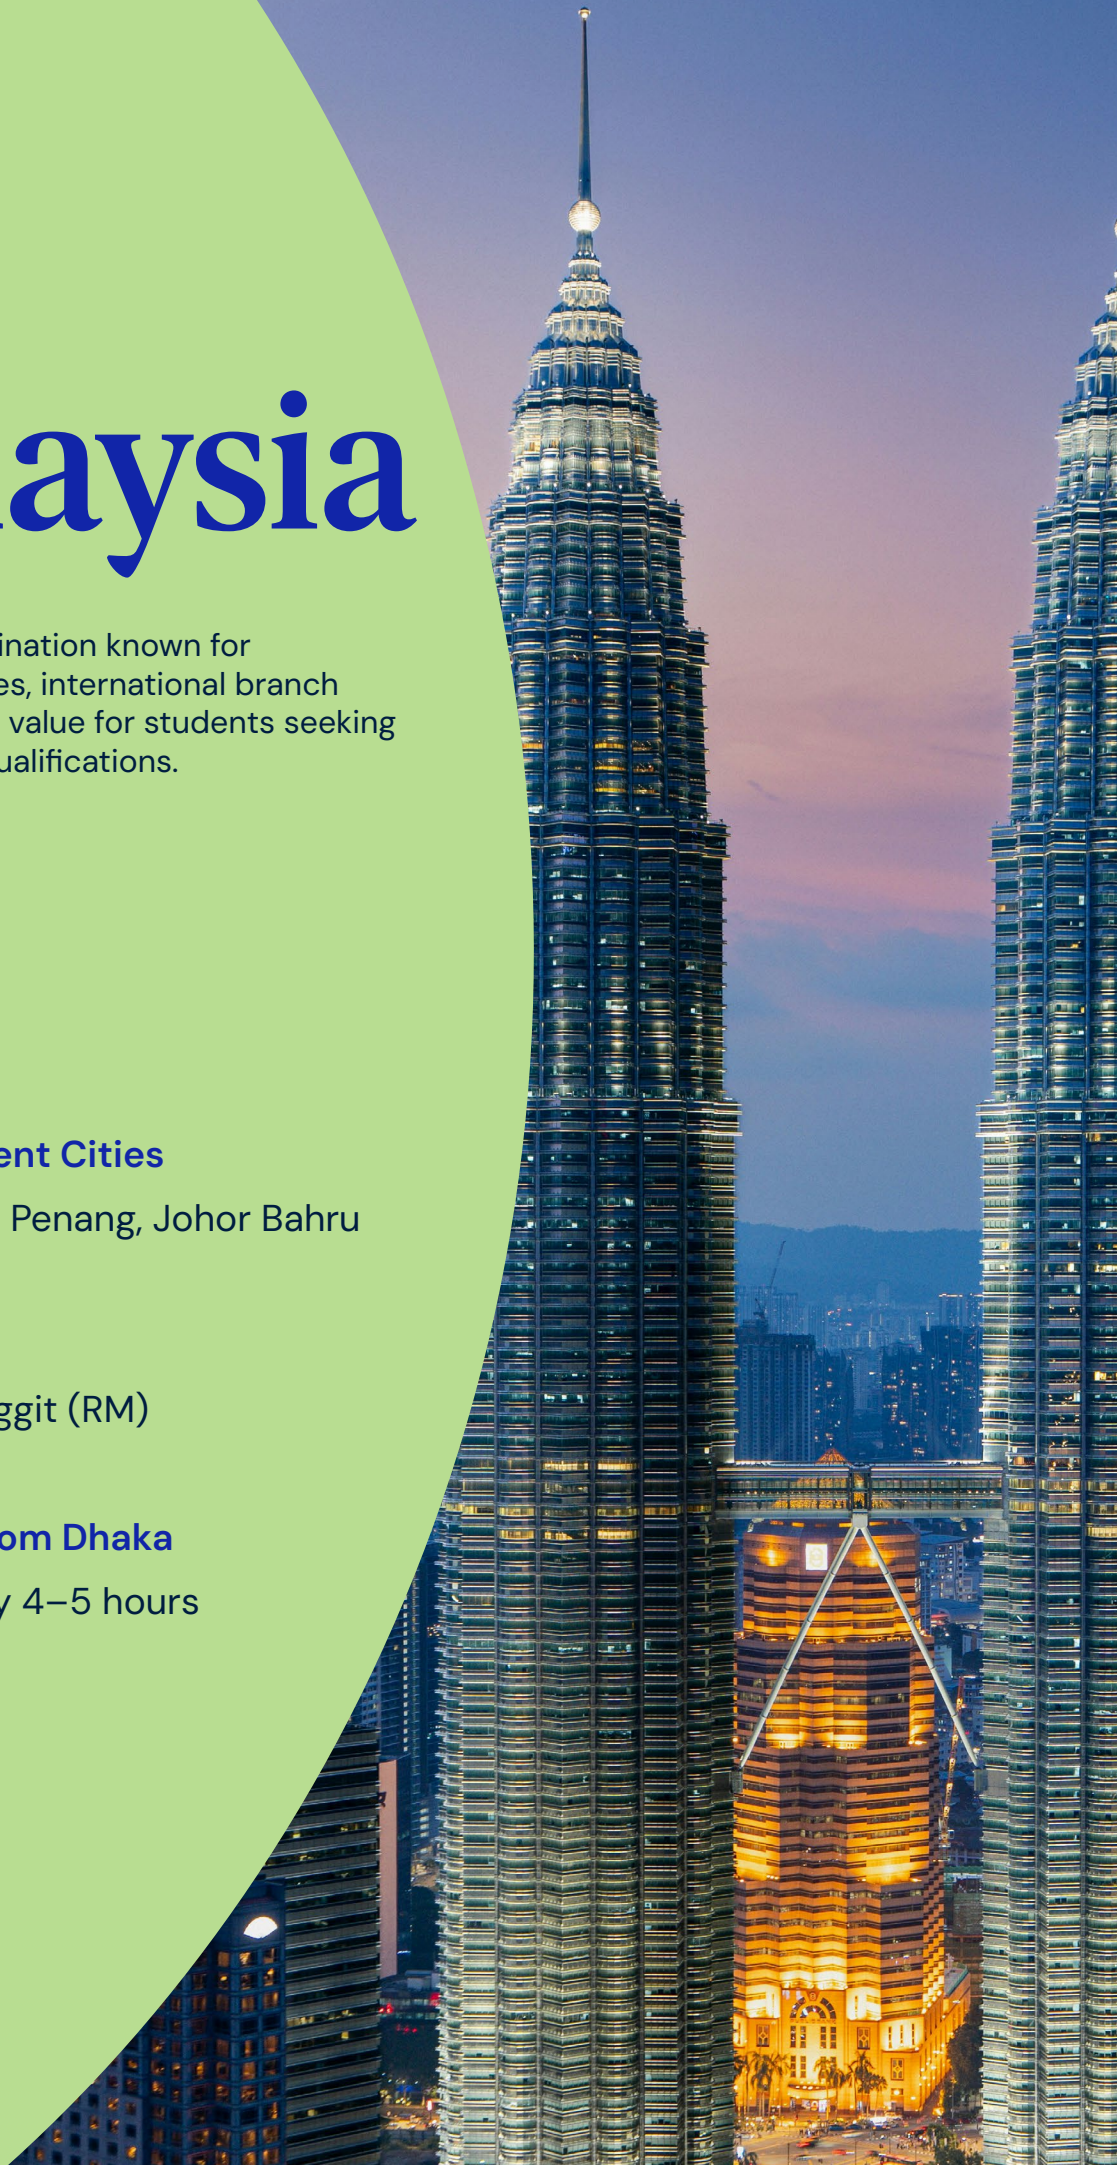

Kuala Lumpur, Penang, Johor Bahru

Currency

Malaysian Ringgit (RM)

Flight Time from Dhaka

Approximately 4–5 hours

Study & Cost

UG duration: 3 yrs **PG duration:** 1–2 yrs

Tuition range: RM26,500 - RM33,000 per year (public universities to private institutions and international branch campuses)

Living range: RM18,000 - RM30,000 per year

Scholarships /funding: Malaysian International Scholarship (government), merit scholarships at Taylor's, Sunway and international branch campuses

Main Intakes & Application Route

Intakes: February, July and September/October (varies by university and programme)

Applying: EMGS (Education Malaysia Global Services) portal, alongside the university application

Application deadlines: Rolling; check university and EMGS timelines for your chosen intake

Work & Career

Permitted work hours: Up to 20 hrs/week, only during semester breaks or holidays longer than 7 days, with approval and in permitted sectors

Post-study work: Malaysia's Graduate Pass, which allows some nationalities to remain for 12 months without employer sponsorship, is not currently available to Bangladeshi nationals. Graduates wishing to work in Malaysia after their studies need a confirmed job offer, with their employer applying for an Employment Pass on their behalf.

Industry strengths: Finance, Electronics & Semiconductors (Penang), Palm Oil & Commodities

Career pathways: Shared-services in Kuala Lumpur, electronics manufacturing in Penang, branch campus-to-home campus opportunities

Key Consideration

Unlike some other nationalities, Bangladeshi graduates aren't currently eligible for Malaysia's Graduate Pass, so securing a job offer before or shortly after graduation matters more here than it might for other destinations in this guide. Building strong local networks and internship experience during study is worth emphasising with students considering Malaysia specifically.

Australia

One of the world's most established study destinations, combining globally ranked universities with a genuine multi-year path from graduation to skilled work.

Capital

Canberra

Popular Student Cities

Melbourne, Sydney, Brisbane

Currency

Australian Dollar (A$)

Flight Time from Dhaka

Approximately 10–13 hours

✻ Study & Cost

UG duration:	3 yrs	**PG duration:**	1.5–2 yrs
Tuition range:	AUD $25,000 - $45,000 per year		
Living range:	AUD $28,000 - $30,000 per year		
Scholarships /funding:	Australia Awards, Destination Australia, and university-specific merit awards (e.g. Monash International Merit Scholarship, Melbourne International Undergraduate Scholarship)		

✻ Main Intakes & Application Route

Intakes:	February (main), July (secondary)
Applying:	Direct to university
Application deadlines:	Vary by university, generally three to six months before the intended intake; rolling admissions are common

✻ Work & Career

Permitted work hours:	Up to 48 hrs/fortnight during term, unlimited during scheduled breaks
Post-study work:	Temporary Graduate visa (subclass 485): 2 years for Bachelor's or coursework Master's, 3 years for research Master's or PhD, 18 months for vocational qualifications.
Industry strengths:	Engineering, Healthcare, IT and Data, Mining and Resources
Career pathways:	Engineering and resources sector roles, healthcare and allied health, tech and data careers in Sydney and Melbourne, skilled migration via the Points Test

✻ Key Consideration

The 485 visa has become considerably stricter since 2024, application fees have risen sharply and the age limit dropped to 35, with exceptions for research Master's and PhD graduates. These changes apply to all international students, so it's worth building post-study planning into course selection from the outset.

New Zealand

A safe, high-quality education system offering one of the more generous and straightforward post-study work windows among popular study destinations.

Capital

Wellington

Popular Student Cities

Auckland, Wellington, Christchurch

Currency

New Zealand Dollar (NZ$)

Flight Time from Dhaka

Approximately 16–19 hours

✻ Study & Cost

UG duration:	3 yrs	**PG duration:**	1–2 yrs
Tuition range:	NZD $27,000 - $40,000 per year		
Living range:	NZD $20,000 - $24,000 per year		
Scholarships /funding:	New Zealand Government (Manaaki New Zealand) Scholarships, university-specific awards (e.g. University of Otago International Excellence Scholarship)		

✻ Main Intakes & Application Route

Intakes:	February (main), July (secondary)
Applying:	Direct to university
Application deadlines:	Vary by university, generally three to six months before the intended intake

✻ Work & Career

Permitted work hours:	Up to 20 hrs/week during term, full-time during holidays
Post-study work:	Post-Study Work Visa, up to 3 years for graduates of a Bachelor's degree or above who studied full-time for at least 30 weeks; shorter durations apply for lower-level qualifications.
Industry strengths:	Agritech, Engineering, IT, Healthcare
Career pathways:	Agritech and food science roles, engineering and construction, healthcare and allied health, a growing tech sector in Auckland and Wellington

✻ Key Consideration

New Zealand's Post-Study Work Visa offers up to three years for most Bachelor's degree holders and above, one of the more generous and straightforward post-study windows in this guide, with no job offer required to apply.

Canada

A globally respected, comparatively affordable education system with a clear, structured route from graduation to skilled work and permanent residency for degree-holders.

Capital

Ottawa

Popular Student Cities

Toronto, Vancouver, Montreal

Currency

Canadian Dollar (C$)

Flight Time from Dhaka

Approximately 18–22 hours

✻ Study & Cost

UG duration:	4 yrs	**PG duration:**	1–2 yrs
Tuition range:	CAD $15,000 - $35,000 per year		
Living range:	CAD $21,00 - $25,000 per year		
Scholarships /funding:	Vanier Canada Graduate Scholarships (PhD), university-specific entrance scholarships and merit awards		

✻ Main Intakes & Application Route

Intakes:	September (main), January and May (secondary)
Applying:	Direct to university or via provincial application systems
Application deadlines:	Vary by university, generally six to twelve months before the intended intake

✻ Work & Career

Permitted work hours:	Up to 24 hrs/week during term, full-time during scheduled breaks, on- and off-campus without a separate work permit
Post-study work:	Post-Graduation Work Permit (PGWP), up to 3 years for most Master's and PhD graduates, shorter for Bachelor's and college-level programmes
Industry strengths:	Technology, Finance, Engineering, Healthcare
Career pathways:	Tech roles in Toronto and Vancouver, finance and banking in Toronto, engineering and skilled trades nationally, pathway to permanent residency via the Canadian Experience Class (Express Entry)

✻ Key Consideration

The PGWP has become considerably more rules-based since late 2024. Degree-holders (Bachelor's, Master's, PhD) aren't restricted by field of study, but must now meet a language proficiency requirement, and Master's graduates specifically benefit from the full 3-year permit. Course level and language preparation should be planned early.

Compare Study Destinations at a Glance
