Types of Institutions

Highly ranked UK institutions offer high-quality education, but the UK's strength lies in its depth of quality.

Work-Integrated Learning and Internships

Many universities offer placement years, internships, and industry partnerships to help students gain practical experience, some of which are paid. Sandwich courses - degree programs that incorporate full-time work placements into academic study - in particular can help students get access to relevant job opportunities, allowing them to gain related professional experience over the course of their studies.

Working While Studying

International students on a Student Visa in the UK can work up to 20 hours per week during term time and full-time during holidays.

Intakes and Deadlines

The main intake for UK universities with the widest range of courses is in September (Autumn/Fall). The January (Winter) and May (Summer) intakes offer limited courses but less competition for university and admissions, along with the opportunity to pursue specialized postgraduate courses.

Scholarships and Financial Aid

The UK government, universities, external institutions, and private benefactors offer many scholarships each year to support international students pursuing education in the UK. Some scholarships offer deductions on tuition fees while others offer additional funding towards the cost of living, travel, and other essential costs students may have to bear during their time in the UK. In addition, Canadian students have access to grants and loans through Canadian Student Aid.

UK Student Visa

Canadian students planning to study in the UK must apply for a Student Visa.

Application Process

01 Apply to the chosen university, receive an offer, and acquire the Confirmation of Acceptance of Studies (CAS)

02 Apply for a visa online through the UK Visas and Immigration (UKVI) portal and pay the application fee
